

Safety Data Sheet according to Reg. (EC) 1907/2006

Product name: CT Oil
Updated: 23. August 2017
Version: d

Date of issue: 23. August 2017
Previous version: c

Section 1: Identification of the substance and of the company

1.1 Product identifier:

MCT Oil Type V Ph. Eur. / Product-No. 190031

1.2 Relevant identified uses of the substance and uses advised against

Sector of use

SU00 Other

SU03 Industrial uses: Uses of substances as such or in preparations at industrial sites

Application of the preparation

Skin cosmetics

Pharma excipient

Food additives

1.3 Supplier

Ekokoza s.r.o.
Fryčovice 297
73945, Fryčovice
eshop@ekokoza.cz
+420605779993

1.4 Emergency telephone number Mainz

Nouzové telefonní číslo: +420224919293 , +420224915402 (telefon 24hod/denně)

Toxikologické informační středisko, Na Bojišti 1, 128 08 Praha2)

Section 2: Hazards identification

2.1 Classification of the substance

Classification according to Regulation (EC) 1272/2008: Not classified.

Classification according to Directive 67/548/EWG: Not classified.

2.2 Label elements

Signal word: No signal word.

Hazard statements: No known significant effects or critical hazards.

2.3 Other hazards:

No.

Section 3: Composition

3.1 Substance

Caprylic/Capric Triglycerides

REACH: 01-2119492306-35-0018

CAS-No.: 73398-61-5 Glycerides, mixed decanoyl and octanoyl

Safety Data Sheet according to Reg. (EC) 1907/2006

Product name: CT Oil
Updated: 23. August 2017
Version: d

Date of issue: 23. August 2017
Previous version: c

EINECS-No.: 277-452-2

There are no additional ingredients present which, within the current knowledge of the supplier, are classified and contribute to the classification of the substance and hence require reporting in this section.

Section 4: First aid measures

4.1 Description of first aid measures

Ingestion: Wash out mouth with water and then drink plenty of water. Remove victim to fresh air. Do not induce vomiting unless directed to do so by medical personnel. Get medical attention if symptoms occur.

Inhalation: Fresh air. Get medical attention if symptoms occur.

Skin contact: Flush contaminated skin with plenty of water, wash with soap and rise thoroughly. Remove contaminated clothing and shoes.

Eye contact: Immediately flush eyes with plenty of water. Check for and remove any contact lenses. Get medical attention if irritation occurs.

4.2 Most important symptoms and effects, both acute and delayed

Potential acute health effects

Ingestion: No known significant effects or critical hazards.
Inhalation: No known significant effects or critical hazards.
Skin contact: No known significant effects or critical hazards.
Eye contact: No known significant effects or critical hazards.

Over-exposure signs

Ingestion: No specific data.
Inhalation: No specific data.
Skin contact: No specific data.
Eye contact: No specific data.

4.3 Indication of any immediate medical attention and special treatment needed

Notes to physician: No specific data.

Specific treatment: No specific treatment.

Section 5: Firefighting measures

5.1 Extinguishing media

Suitable extinguishing media: Chemical powder, carbon dioxide or water spray. Fight lager fires with water spray.

Unsuitable extinguishing media: Water with full jet.

5.2 Special hazards arising from the substance

No further relevant information available.

5.3 Advice for firefighters

Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire.

Safety Data Sheet according to Reg. (EC) 1907/2006

Product name: CT Oil
Updated: 23. August 2017
Version: d

Date of issue: 23. August 2017
Previous version: c

Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus with a full face-piece operated in positive pressure mode. Clothing for fire-fighters conforming to European standard EN 469 will provide a basic level of protection for chemical incidents.

Section 6: Accidental release measures

6.1 Personal precautions, protective equipment and emergency procedures

Do not touch or walk through split material. Put on appropriate personal protective equipment.

6.2 Environmental precautions: Avoid dispersal of split material and runoff and contact with soil, waterways, drains and sewers.

6.3 Methods and materials for containment and cleaning up

Small spill: Stop leak if without risk. Move container from spill area. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.

Large spill: Stop leak if without risk. Move container from spill area. Prevent entry into sewers, water courses, basements or confined areas. Wash spillage into an effluent treatment plant or proceed as follows. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations. Dispose of via licensed waste disposal contractor.

Section 7: Handling and storage

7.1 Precautions for safe handling

Advice on general occupational hygiene

Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas.

7.2 Conditions for safe storage

Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination.

Section 8: Exposure controls/personal protection

8.1 Control parameters

Not applicable.

8.2 Exposure controls

Individual protection measures

Hygiene measures: Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing.

Safety Data Sheet according to Reg. (EC) 1907/2006

Product name: CT Oil
Updated: 23. August 2017
Version: d

Date of issue: 23. August 2017
Previous version: c

Eye protection: safety eyewear.

Body protection: Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.

Hand protection: Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary. >8 hours (breakthrough time): neoprene, nitrile, Viton®.

Skin protection: Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.

Respiratory protection: Use a properly fitted, air-purifying or air-fed respirator complying with an approved standard if a risk assessment indicates this is necessary. Respirator selection must be based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the selected respirator. Recommended: organic vapour filter.

Environmental exposure controls: Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation.

Section 9: Physical and chemical properties

9.1 Information on basic physical and chemical properties

Physical state: liquid
Colour: light yellow
Odour: odourless

		value / area	Unit
Melting point/freezing point:		approx. 0 – 10	°C
Pour point:		- 21	°C
Flash point:	open cup	> 220	°C
Flammability:	not applicable		
Initial boiling point and boiling range:		not available	
Auto-ignition temperature:		not available	
Cloud point / clarification point:		< -5	°C
Danger of Explosion:		product does not present an explosion hazard	
Vapour pressure:	at 20 °C	<0,01	Pa
Relative density:	at 15 °C	approx. 0,94	kg/l
Dynamic viscosity:	at 20 °C	approx. 25 – 30	mPas
Solubility in water:	not miscible or difficult to mix		

9.2 Other information

No additional information.

Safety Data Sheet according to Reg. (EC) 1907/2006

Product name: CT Oil
Updated: 23. August 2017

Date of issue: 23. August 2017
Previous version: c

Section 10: Stability and reactivity

- 10.1 Reactivity:** No specific test data related to reactivity available for this product or its ingredients.
- 10.2 Chemical stability:** The product is stable.
- 10.3 Possibility of hazardous reactions:** Under normal conditions of storage and use, hazardous reactions will not occur.
- 10.4 Conditions to avoid:** No specific data.
- 10.5 Incompatible materials:** see section 7
- 10.6. Hazardous decomposition products:** smoke and irritating vapours when heated to decomposition.

Section 11: Toxicological information

11.1 Information on toxicological effects

Acute toxicity:

LD50 Dermal (rat) > 2000 mg/kg

LD50 Oral (rat) > 5000 mg/kg

NOAEL (rat) = approx. 10 000 mg/kg

Conclusion: Not available.
Irritation/Corrosion: No irritating effect.
Sensitization: Not available.
Carcinogenicity: No further relevant information available.

Specific target organ toxicity (single exposure): Not available.

Specific target organ toxicity (repeated exposure): Not available.

Section 12: Ecological information

12.1 Toxicity

EC50 48 hours (Daphnia) > 100 mg/L

LC50 (fish) >= 53 mg/L

LC50 96 hours (fish) > 10 000 mg/L

12.2 Persistence and degradability

Product is biodegradable.

12.3 Bioaccumulative potential

Does not accumulate in organisms.

12.4 Mobility in soil

No data available.

Safety Data Sheet according to Reg. (EC) 1907/2006

Product name: CT Oil
Updated: 23. August 2017
Version: d

Date of issue: 23. August 2017
Previous version: c

12.5 Results of PBT and vPvB assessment

PBT: No.
vPvB: No.

12.6 Other adverse effects: No known significant effects or critical hazards.

Section 13: Disposal considerations

13.1 Waste treatment methods

Product:

Methods of disposal:

Significant quantities of waste product residues should not be disposed of via the foul sewer but processed in a suitable effluent treatment plant. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements.

Packaging:

The generation of waste should be avoided or minimized wherever possible. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible.

EU-disposal code: 13 08 99 oil waste. Classification of waste is in end user's individual authority.

Section 14: Transport information

No hazardous goods according UN, IMO, ADR/RID und IATA/ICAO.

Section 15: Regulatory information

15.1 Safety, health and environmental regulations/legislation specific for the substance

Other EU regulations

National regulation

Water hazard class: allgemein wassergefährdend (awg), VO AwSV, Anlage 1, Abs. 3

Canada inventory:	All components are listed or exempted.
United States inventory (TSCA 8b):	All components are listed or exempted.
Europe inventory:	All components are listed or exempted.

International lists:

Australia inventory (AICS):	All components are listed or exempted.
China inventory (IECSC):	All components are listed or exempted.
Japan inventory:	All components are listed or exempted.
Korea inventory:	All components are listed or exempted.
New Zealand Inventory of Chemicals (NZIoC):	All components are listed or exempted.
Philippines inventory (PICCS):	All components are listed or exempted.
